Our Service Products

Battery Replacement Services

Installation, maintenance, replacement or removal of your UPS batteries, choose the battery service that best meets your needs, Superon Power Solutions offers a variety of battery services to ensure that your batteries are serviced properly and, when required, safely replaced by certified service professionals.

Extended Warranty

The Extended Warranty provides peace of mind and product failure protection beyond the Service Pack or Factory warranty period. Once the Service Pack/Factory warranty for your product or accessory expires, should your product fail, you expose yourself to potential loss of power protection and costly out of pocket expenses for repairs.

Annual Maintenance Contracts

In today's competitive era, downtime of any Infrastructure is very expensive affair. Generally products come with 1 or 2 Year Warranty, which is a complicated task to manage out of warranty services due to multiple approvals & organization Policy compliances. Every organization may not have specialized In house repair/maintenance team to manage take care of products & managing Spare parts at their Own. We are the best people to support in maintaining equipment's.

Out of Warranty Supports

Out-of-warranty service programs address situations after the expiration of the unit's factory warranty, as stated in the user's manual. For out-of-warranty service, customers have several options. Please contact Superon Power Solutions for further offering.
